Our solutions

Advanced solutions for industrial connections/seals

Specialized adhesives and sealants from Loctite, Varybond, etc. These high-quality products ensure leak-free connections.

The range includes instant adhesives, anaerobic adhesives for thread locking, sealing, and structural adhesives that provide durability.

Application: Suitable for sectors such as automotive, electronics, machinery manufacturing, etc. Meets the most demanding industrial needs.

Silicones and specialized sealants

High-quality silicone sealants for sealing joints on glass, aluminum, masonry, and plastic.

Includes neutral and acetic acid curing silicones, acrylic sealant for various sealing needs, PUR foams, and special silicone products (gels, greases, lubricants) for insulating components.

Application: Suitable for all kinds of joints, both indoors and outdoors on numerous different surfaces. Special products for electrical insulation, UV resistance, thermal management, or mechanical applications.

Other specialized adhesives

Lambert Products offers a variety of other specific industrial adhesives such as ARALDITE® (epoxy adhesives), BOSTIK (Simson ISR 7003 and ISR 7006), etc.

Application: adhesive and sealing solutions for various industrial needs: high temperature and chemical resistance, automotive, aerospace, construction, electronics, connections requiring higher elasticity, etc.
